

NCR SelfServ™ 14CE

Compact Interior Cash Dispenser for Retail Deployment

Looking for a high volume, compact and reliable cash dispenser for retail locations?

YES

Attract more customers in more off-premise locations

Specifically designed for off-premise locations, the NCR SelfServ 14CE is a compact, interior cash dispenser that offers a very low total cost of ownership. With the smallest footprint in the SelfServ range the SelfServ 14CE is ideal for independent deployers looking to deploy in convenience stores and a wide range of off-premise locations. The addition of a backlit topper panel provides additional advertising capabilities enabling you to attract more customers.

- **High availability**

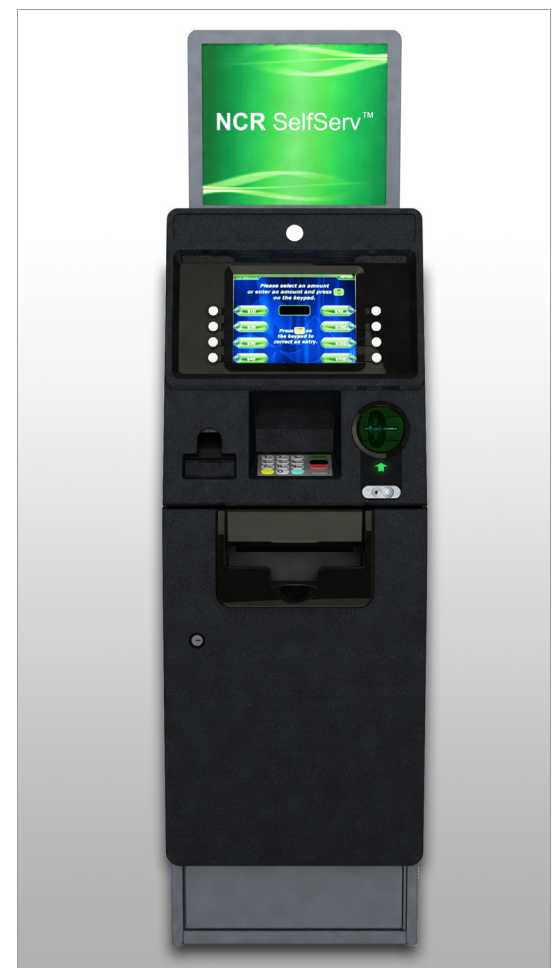

Availability is about delivering the transactions that consumers want, where and when they need them. Built around our proven and reliable spray dispense technology, the SelfServ 14CE is capable of reliably handling low to high transaction volumes with a low breakeven point.

- **Easy to manage**

The SelfServ 14CE is suitable for both Cash In Transit (CIT) and merchant fill environments. With minimal infrastructure requirements the SelfServ 14CE is easy to install, manage and maintain. The addition of NCR APTRA™ Base software makes integration into your existing network a seamless experience. Its front access design ensures that cash replenishment is fast and effortless for store owners as well as CITs.

- **Easy to use**

With fresh and modern styling, choice of a 10" or 7" widescreen LCD display and a compact and intuitive user interface, the SelfServ 14CE ensures that consumers and staff become experts after their very first use, resulting in better consumer satisfaction, and operational efficiency.
